

RL510 ROTATING LASER

DESCRIPTION

- Fully automatic rotating laser that can be used for leveling, vertical alignment, plumbing and squaring.

APPLICATIONS

- Installing suspended ceilings
- Stud & track layout
- Soffits
- Variety of interior alignment tasks

FEATURES

Accuracy @ 100 ft	1/8"	Field Calibrateable	Yes
Range	1000'	Chalk Line Mode	Yes
Battery Life (Alkaline)	160 hrs	Scan Mode	Yes
Battery Life (Rechargeable)	40 hrs	Manual Slope Mode	Yes
Self Leveling Range (Horizontal)	±10 deg	Alkaline "D" Battery Capable	Yes
Self Leveling Range (Vertical)	±10 deg	Rechargeable Battery	Yes
Wall Mount	Integrated	Remote Control	Yes
Motorized Wall Mount	Integrated		

RL510 Interior Kit includes, rotating laser, integrated motorized wall mount, rechargeable and alkaline battery packs remote control, target card, laser enhancing glasses, and impact resistant carrying case.

RL2+ CROSS/PLUMB LASER

APPLICATIONS

WALLS & CEILINGS

- Drywall track layout
- Soffits
- Suspended ceilings
- Trim, windows and door frames

ELECTRICAL

- Outlets
- Plumb points for coring and positioning lighting
- Leveling of cable tray and trapeze/rack

FEATURES

Recommended use	Up to 100 ft. indoors and up to 165 ft. outdoors with optional detector
Accuracy:	± 1/8" at 30 ft.
Self-leveling range:	± 5°
Cross line:	130° horizontal and 140° vertical fan angles
Plumb beam:	For floor-to-ceiling transfer
Manual mode:	Lock line to match any angle between two points
Pulse mode:	For use with optional detector
Power:	3 AA batteries
Battery life:	25 hrs. 1-beam operation; 12 hrs. with 2 beams
Working temperature:	14° to 122° F (-10° to +50°C)
Tripod mount:	1/4" x 20 camera tripod
Size:	4 1/2" x 2 1/4" x 3 7/8"
Weight:	1 lb.
